

Centres of African Excellence

The Programme

The establishment of university centres of excellence which operate on an internationally competitive level to train experts and leaders for sub-Saharan Africa is a part of the DAAD's Africa strategy. The objective is to significantly improve the quality and relevance of education at African universities in selected subjects, to create research capacity, and to establish networks among African universities and research institutions as well as with German partners.

Activities

- Scholarships (MA, PhD) on quality based selection processes
- Support of mobility, conferences (summerschools), networking, infrastructure
- Research allowences
- Training courses (short courses, train the teacher, staff capacity building, life long learning)
- Support of Alumni (concepts)
- Corporate Identity

Programme Results

- 10 Centres are cooperating in networks with relevant stakeholders and achieving increased social visibility
- 46 Curricula/teaching modules in application oriented study programmes have been jointly developed and improved
- 1064 persons are trained in different subjects and mainly integrated into the labour market

Sustainability & Synergies

- applied research or contract research is conducted
- digital components will be integrated
- post-doc positions included
- tuition fees are generated
- pan-african alumni network is established
