The Other 1 Percent Refugee Students in Higher Education

International Conference on June 18 & 19 in the Weltsaal of the German Federal Foreign Office in Berlin

On the occasion of World Refugee Day 2019, the German Federal Foreign Office (FFO), the German Academic Exchange Service (DAAD) and the United Nations Refugee Agency (UNHCR) are organizing an international expert conference on refugee students in higher education.

The Global Compact on Refugees, adopted in December 2018, aims to improve international cooperation on refugee issues in order to improve their self-reliance and resilience. Higher education and access to the labour market play an important role in this. However, currently, only about one percent of refugees are studying worldwide. Therefore, the objective of the conference is to emphasize the importance of expanding access to higher education for them. The Albert Einstein German Academic Refugee Initiative (DAFI), UNHCR's flagship scholarship programme, is an example of how this can be achieved.

The first day of the conference is characterized by high-level speeches and discussions and the opening of the photo exhibition, while the second day provides an opportunity for an intensive exchange among experts. The photo exhibition "The Other 1 Percent" presents DAFI students in Lebanon, Senegal, Jordan, Kenya, Pakistan and Rwanda. The exhibition will be on display for three weeks in the atrium of the Federal Foreign Office.

HIGHER AND FURTHER EDUCATION
OPPORTUNITIES & PERSPECTIVES
FOR SYRIANS

"Since coming to Jordan, five years ago, I tried to build my capacity and experience in the psychological field."

Driven by my passion, I always looked for opportunities to complete my post-graduate degree since I had to stop my study due to financial reasons. HOPES has provided me with an immense support and a great opportunity to continue my study and achieve my goal and attain a Clinical Psychology degree."

Aya AlShamaa

Aya is a Clinical Psychology MA student at Al-Ahliyya Amman University in Jordan
