1. PRESENTATION OF THE EU EMERGENCY TRUST FUND FOR AFRICA

European
Commission

The 3 geographical regions of the Trust Fund

Priority areas of intervention

Greater economic and employment opportunities

Improved governance and conflict prevention

Strengthening resilience of communities, in particular the most vulnerable, as well as refugees and displaced people

Improved migration management in countries of origin and transit

Why has a new Emergency Trust Fund been established?

- To ensure greater **coordination** between the EU and other actors; and a more integrated and evidence-based approach;
- As a **joint, swift** and **flexible** response to deliver immediate and concrete results;
- To act as a **platform** for reinforced engagement with partner countries;
- As an **additional tool** to the €10 billion of EU development cooperation already contributing towards tackling the root causes of migration.

2. APPROACH OF THE HORN OF AFRICA WINDOW

Our approach:

Politically framed

Feeding into the priorities of the Valletta Action Plan, EUTF Strategy and High Level Dialogues

Evidence-based, research-driven, results-focused

Geographically focused on migratory routes

Inclusive and comprehensive

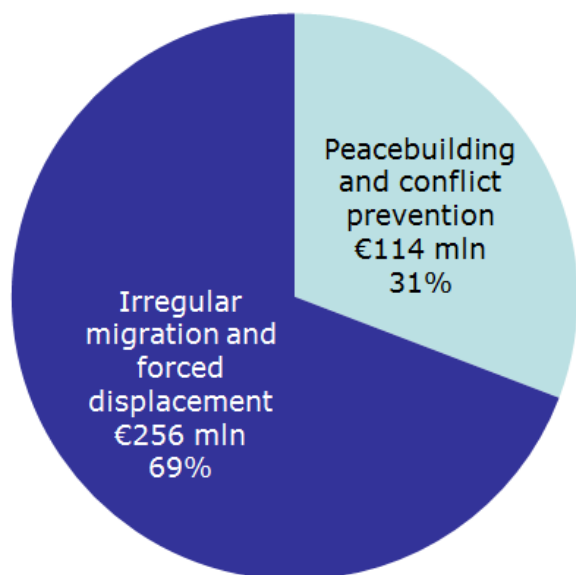

Conflict-sensitive and people-centred

Designed organically from the ground up

Focus on regional opportunities and challenges

The Horn of Africa Operational Framework is based on a two-fold logic which guides our lines of action:

- Migration and displacement
- Peacebuilding and conflict prevention

Almost **70%** of 1st & 2nd pipelines' actions address challenges and opportunities of migration in the region

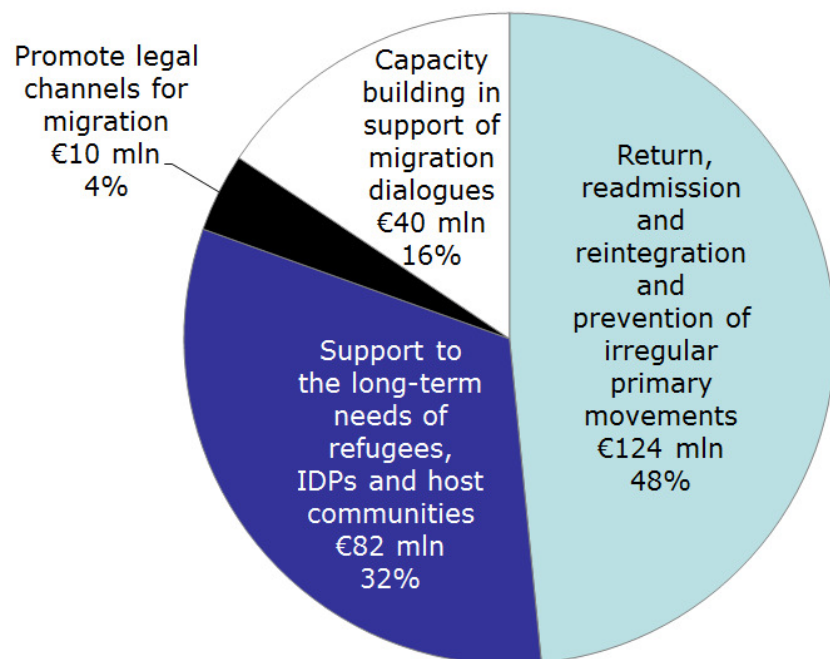

Migration and displacement

- **Addressing root causes** of irregular migration and forced displacement, and **improving conditions for IDPs, refugees and their host communities** to address long-term developmental and protection needs, including **reintegration** into areas of origin
- Strengthening long-term elements of **migration management**, including improved **border management**, fight against **trafficking and smuggling**, support to **return and readmission**, promotion of **legal migration channels**

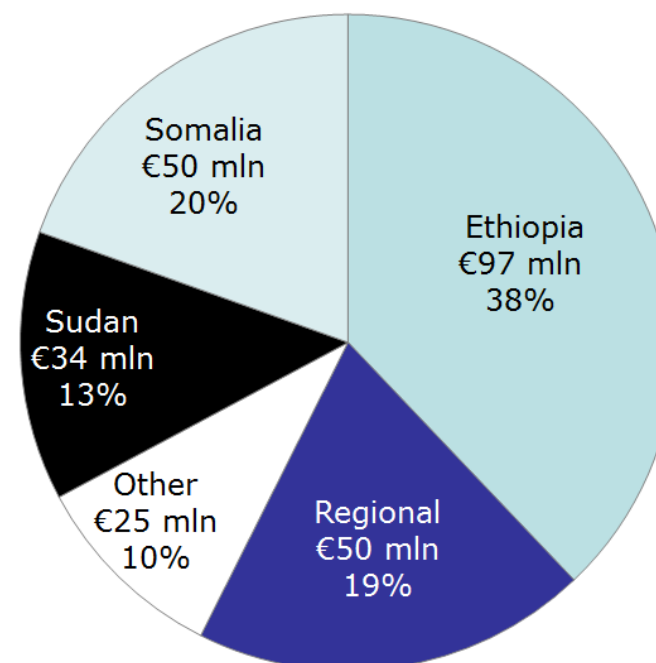

Indication of distribution of funds

Distribution of the support to irregular migration and forced displacement by domains

Distribution of the EUTF funds in irregular migration and forced displacement projects by locations

Peacebuilding and conflict prevention

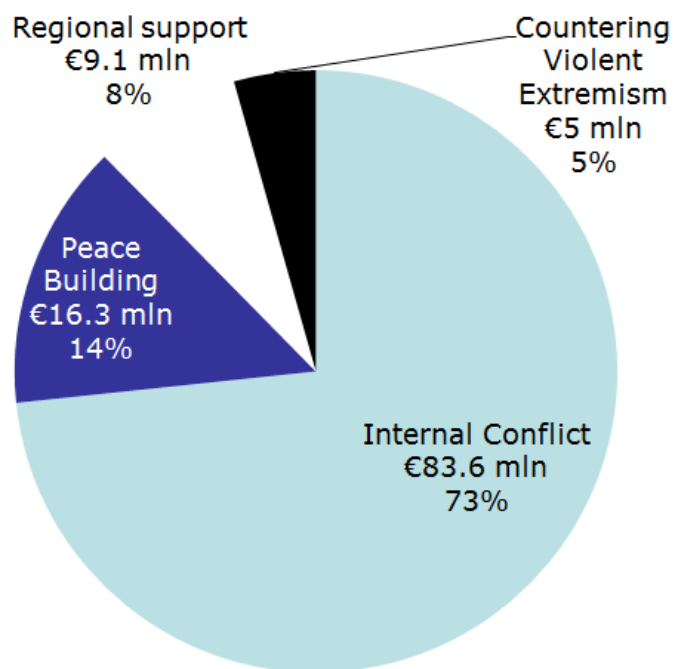

- Focus on **internal conflicts**, as well as **high-risk areas** such as cross-border regions which are also migrant transit routes
- **Identification of areas** prone to violent extremism at local level; **targeted interventions** addressing grievances arising from social, economic and political marginalisation and exclusion

Interventions: multi-faceted and tailored to local contexts:
E.g. economic opportunities and employment, vocational training, education, health services, community dialogues and mediation, etc.

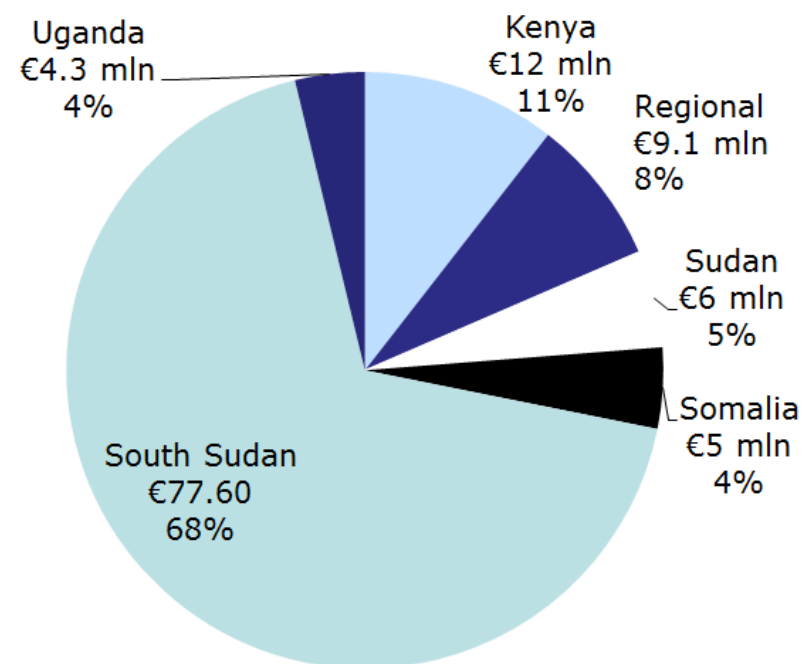

Indication of distribution of funds

Distribution of the support to peacebuilding and conflict prevention by domains

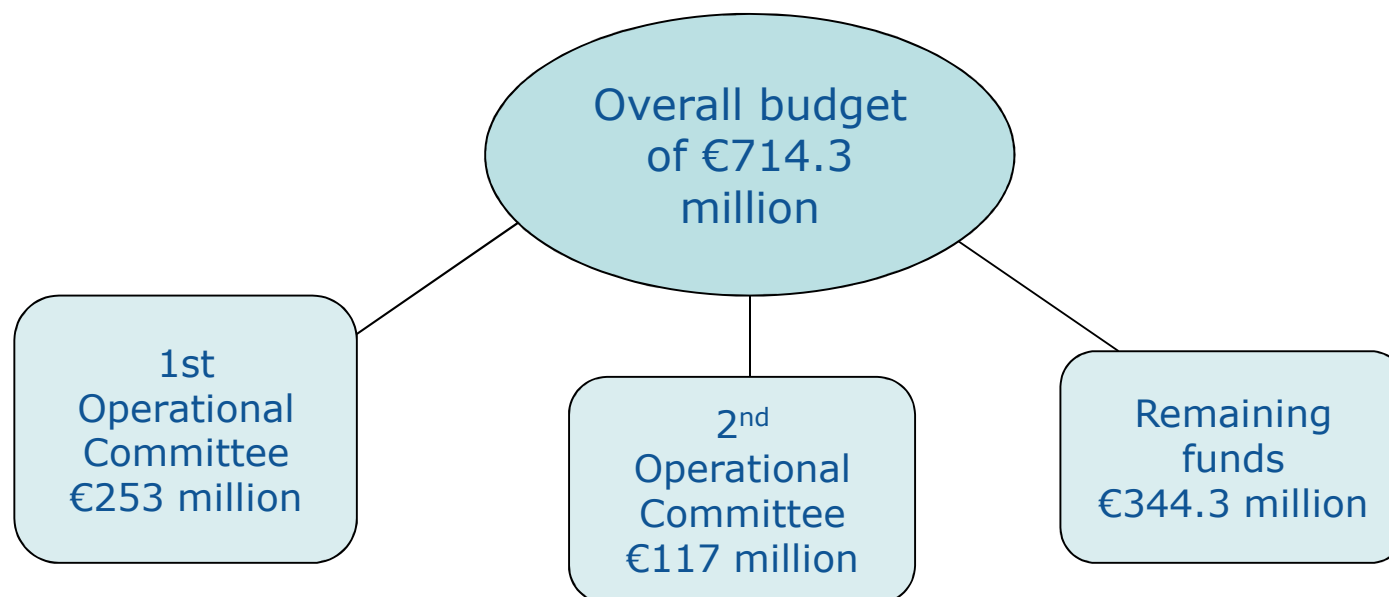

Distribution of the EUTF funds in peacebuilding and conflict prevention by locations
