Africa: *MEDIAN AGES*

By the End of the Century, 40% of People Will Be African

World population forecast with Africa's percentage share

World's Population

Africa's Population Accounts for

230 million

1.2 billion

2.4 billion

4.2 billion

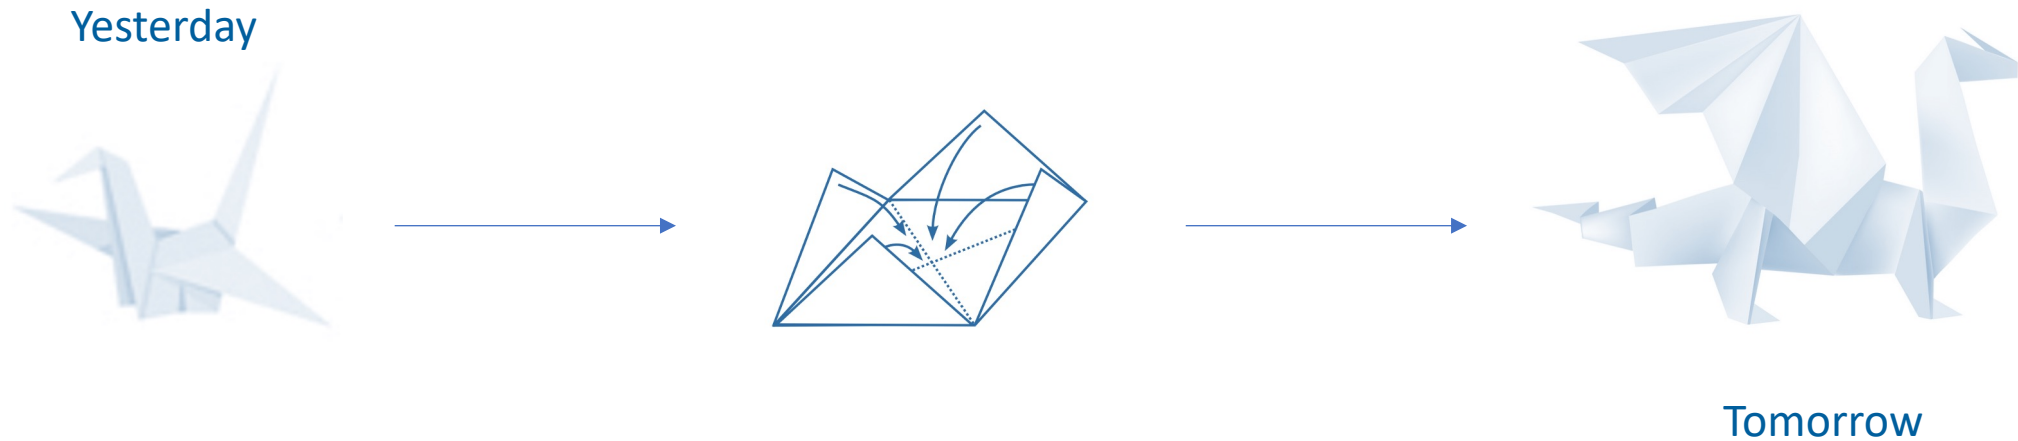

IT IS NOT **ONLY** ABOUT
CHARITY, COOPERATION, HELP...

IT IS **ALSO** ABOUT
CO-CREATING & SHARING VALUE

VALUE =

the amount of efforts
people are willing to
do/contribute/invest
to satisfy **a need/desire**

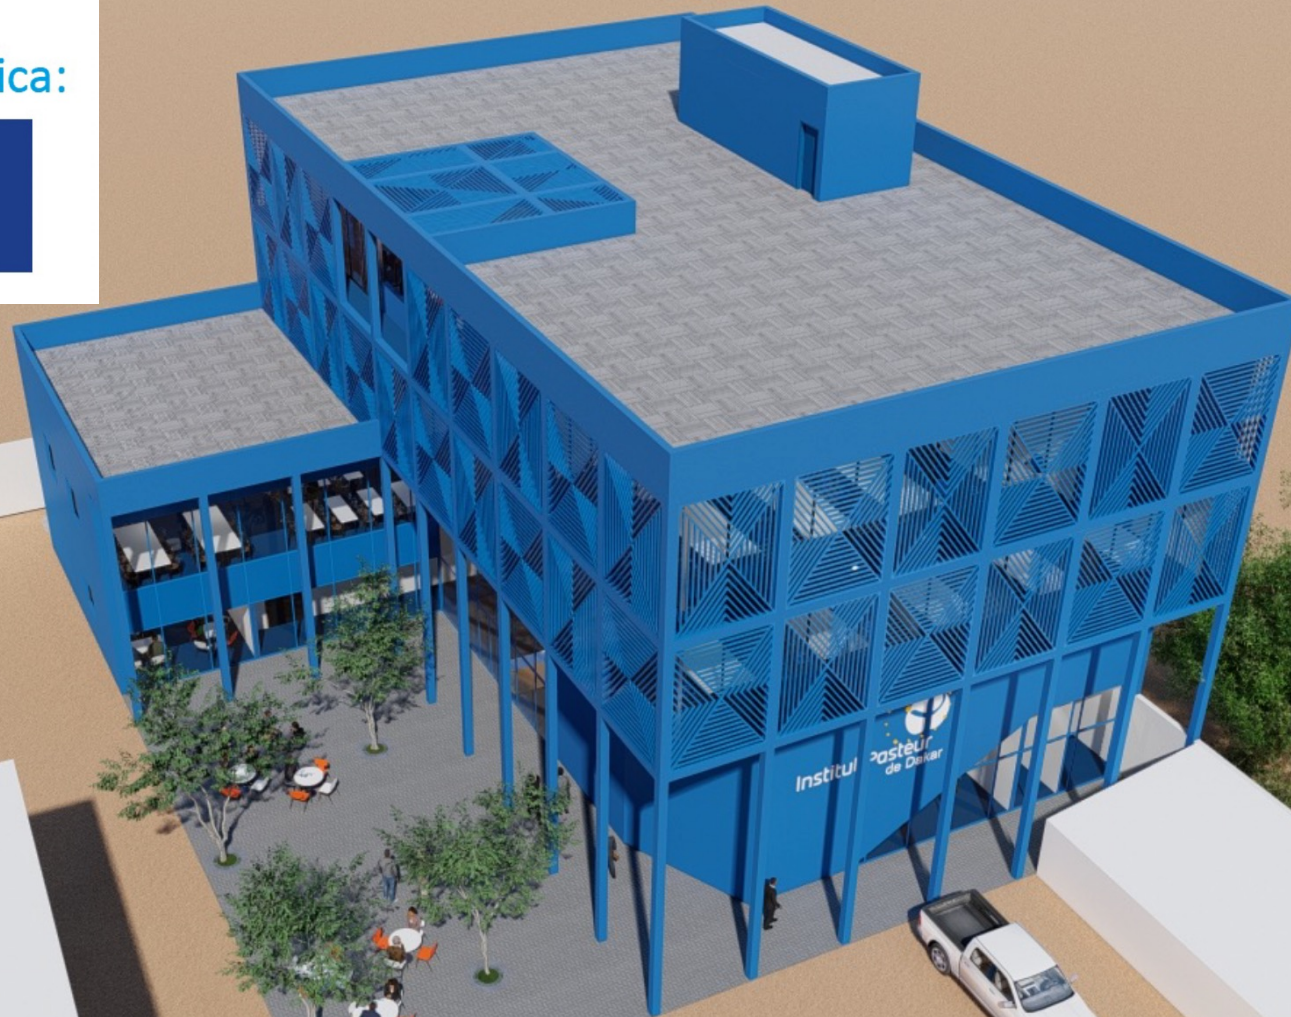

Building new & shared representations

PREPARE

DAHRA 01
DAKAR HEALTH & RESEARCH ACADEMY

A state-of-the art, training & educational center focused on rapid diffusion of basic and applied knowledge about epidemics. The center will be an agora for all the stakeholders involved in the study of infectious diseases, public health and epidemic preparedness.

PREDICT

DIAGORA 02
DISEASE INTELLIGENCE

Modelling, predicting and evaluating the impact caused by epidemics are at the heart of modern epidemiology. Through DIAGORA, we will gather a multidisciplinary team of experts in high performance computing, statistical & mathematical modelling, AI specialists, clinicians and epidemiologists to collect, analyze and extract insights out of medical, public health and real world data.

RESPOND

FICS lab 03
FRUGAL, INNOVATIVE,
CONVERGENT SOLUTIONS

The FICS lab will be the ideal place to convert innovative ideas into field testable prototypes. It will dispose of the most advanced product design and rapid manufacturing capabilities.

The lab will implement agile and lean product development techniques.
